1. Take your puppy out on leash to her outdoor potty spot every hour.
2. Immediately after she goes potty, give her three to five small but super special treats. Give the small treats one at a time and happily tell her, "Good potty, good potty!"
3. Once she's completely empty, she can now have free roam of the room you are in.

*Pro Tip:* Don't let her run around the whole house—she's too young and will have an accident.

*Repeat Steps 1-3 Daily!*
